AN OPEN LETTER OF SUPPORT AND SOLIDARITY TO UKRAINE

On behalf of everyone at Albanian Medical Federation for Europe (AMFE), we write to offer you our support, solidarity, and deepest sympathies in these times of unprecedented horror that Ukraine is experiencing

The Albanian Medical Federation for Europe (AMFE), an international scientific and health non-profit organization, is the network of 25 National AMFE-Branches in Europe and beyond. Our mission is to preserve human life.

The Albanian Medical Federation for Europe (AMFE) is appalled by the current critical situation of Ukraine. We therefore join other international scientific organizations in strongly supporting the Ukrainian people. Healthcare workers and healthcare facilities in particular should not be targeted from any kind of aggression.

Our hearts are with our medical colleagues, patients and Ukrainian people, who receive our full support. They are doing a magnificent job to protect and save lives in their country. We call upon all International Health and NGO's to unite efforts and to take any action possible to help relieve human suffering caused by this war.

The Red Cross and Doctors without Borders are our partner organizations, AMFE therefore suggests to all organizations, which wish to join us with a donation for Ukraine, please contact the International Red Cross and Doctors without Borders.

Sincerely Yours

Dr.med. Aurora Dollenberg,

Chair of f Albanian Medical Federation for Europe (AMFE)

Dr.med. Gazmend Berisha,
